

A map of the African continent is shown in a light gray color. The countries of Sierra Leone, Liberia, and Ghana are highlighted in a darker purple shade. Each of these three countries has a small BlueCrest logo placed within its borders. Below the map, the names of these three countries are written in white text inside white rectangular boxes.

Sierra Leone

Liberia

Ghana

**Providing access to the
best education in the
heart of West Africa**

PRESS FREEDOM

Our Mass Communication and Journalism faculty and students added their voices to the advocacy for the passage of the Freedom of Information Act by the Parliament of Ghana in 2018

The departments Media Business and Professional Journalism Forum brings industry practitioners to the colleges auditorium regularly for very lively debates with students and lecturers.

WOMEN EMPOWERMENT IN ICT

FACT: More women than men are enrolled in our school of Information Technology.

COMMUNITY DEVELOPMENT

The college has through the member of parliament for AyaasoCentral awarded scholarships worth eight thousand cedis to students from the community.

PUBLIC PRIVATE PARTNERSHIP

The Council For Technical and Vocational, Educational and Training (COTVET) through a German sponsorship has asked BlueCrest College to offer free training in garment construction and electronics repairs.

The students also benefit from Maths, English, ICT, Science and Entrepreneurship and are awarded certificates after six months to two years depending on the frequency of how frequently they participate.

NATIONAL COMPETITIVE EXAMINATION (NCE's)

BlueCrest provides opportunities for secondary schools to compete in a quiz and in scholarships. You will meet some of the award winners here who will share their testimonies with you.

MINISTRY DEPARTMENT AND AGENCIES (MDA's)

We offer free certificate programmes to government agencies as part of our corporate social responsibility. Some staff of Ghana Broadcasting Corporation have benefited from this programme.

Social Intervention

Our faculty and students are very responsive to our environment. We have taken part in World Environmental Day, World Water Day and our own "Say No To Plastic Campaign" during which students and faculty removed plastics from the beach.

Our Core Mandate

The four pillars (LITE), the three foundation blocks at the bottom, and the top two summit blocks reflect our quality, passion and a unique direction for institutional building. It is reflected in all our endeavors and activities. We value Empowerment & Passion, Success of Students, and Partnerships & Collaborations to provide Life-long Learning aimed to create a Holistic Impact on all of our stakeholders.

Tech-Enabled Institution

With dedicated communication networks, online learning facilities and fully-wifi enabled campus, BlueCrest students learn in an environment for the future.

TIE-UPS WITH MICROSOFT, IBM, GOOGLE FOR EDUCATION, ORACLE, ETC...

Our IT students have free access to international certifications from global giants like Microsoft, Google, Oracle, IBM etc.

MOODLE

Modular Object-Oriented Dynamic Learning Environment (MOODLE) is a learning platform that allows for offering and tailoring learning environments using community sourced plugins.

CAD

In the fashion industry, Computer-Aided Design (CAD) is increasingly being used for the profession to translate hand sketches to the computer.

MERRITO

Merrito is a lead management system designed to generate potential prospects for counselors to contact. It manages the entire lifecycle of a lead, from initial generation to final conversion. This upgraded platform comes equipped with a variety of powerful features, including integration with the WhatsApp API and more, making it an all-in-one solution for efficient and effective lead management.

Our Partnerships & Collaborations

Affiliation and Accreditation

Strategic Partners

Innovation and Technology Hub Partners

Academic & Learning Partners

Industry Partners

Corporate Social Responsibility

Ever since its inception, BlueCrest University community has always believed that the true meaning of education is to make this society and the country a better place for future generations.

Every educational institution in Liberia is responsible for not just training students with employable skills, but also polish young minds as potential leaders of the future.

Driven by our core values and commitment to social and environmental responsibility, we have initiated several impactful programmes that reflect our dedication to community development.

These initiatives are the outcome of careful planning and consistent effort from our team, ensuring that every resource granted is directed towards meaningful and lasting change. As an educational institution, we strive to give back to the community through what we do best—delivering quality education.

In collaboration with various partner organizations, BlueCrest University supports scholarship opportunities that enable talented students from underprivileged backgrounds to pursue higher education and transform their futures.

Internship and Placement office

The internship program is designed to ensure that students are engaged in a field experience with an opportunity to share their insights and to explore the links between students' academic preparation & professional readiness for the industry. Many students carry out major research work as an outcome of the internship.

Internship Objectives

1. The placement officer under the president's office conducts and completes exploratory evaluations of the candidates selected for internship.
2. The placement officer under the president's office conducts Interviews and orientations for candidates selected for the BCU programs
3. The placement officer under the president's office conducts at least two training programs with the students of BlueCrest University every academic year. This helps in developing relevant skills. The office also organizes career forums for students to prepare them for rewarding lives and careers.
4. The placement officer under the president's office and the marketing team finds career opportunities for students of BCU

Message from The President

It is with profound pride and unwavering dedication that I extend a warm welcome to you to Bluecrest University. As the Rector of this venerable institution, I am deeply honoured to lead a university that stands as a beacon of knowledge, innovation, and community excellence.

Our mission, though elegantly simple, is profoundly impactful: to inspire the minds of tomorrow, foster critical thinking, and meticulously prepare our students to navigate the complexities of an ever-evolving world.

At Bluecrest University, we do not merely

educate; we empower. We cultivate an environment where intellectual curiosity flourishes, where diversity of thought is celebrated, and where every member of our community is nurtured to reach their fullest potential.

As you explore our university, I encourage you to delve into the values and vision that propel us forward. Our unwavering dedication to academic excellence, our steadfast commitment to research and innovation, and our holistic approach to development are the cornerstones of our institution.

Our students are the very heartbeat of this university. Their achievements are our triumphs, and we are resolute in supporting you at every juncture of your academic journey. Challenge yourselves, seize new opportunities, and perpetually seek knowledge. Remember, the world is replete with possibilities, and the education you receive here will equip you with the tools to shape it for the better.

Our esteemed faculty exemplify an unyielding commitment to excellence. Their scholarship, dedication, and passion not only inspire our students but also effectuate meaningful change in the world. Together, we are crafting a university that not only provides an unparalleled academic experience but also serves as a nexus for innovation, leadership, and positive transformation.

Thank you for being an integral part of the Bluecrest family.

School of Graduate Studies

With economies going global, Information Technology has started playing a major role in integrating diverse globalization needs resulting in an emergence of multiple specific domains of Software Development, Networking Technologies, Database and Information Systems Security creating a requirement for certified professional graduates in each domain of expertise. This rapid expansion has not only created a fairly serious shortage on degree holders skilled in these new technologies, it has also driven the salaries of such skilled graduates upwards – a trend seen across the globe.

Today a variety of opportunities are available in the IT industry depending on student's skill and interest. The first step to a successful IT career is deciding which stream of technical career a student would like to pursue. OpenLab's Mastermind Curriculum with a choice of specialization offering two distinct tracks in Software and Network domains. The Bachelor of Science in Information Technology is designed to provide students a unique opportunity of Dual Certification, Professional Diploma (2 Years) from OpenLabs and a first degree in Information Technology from a leading Public University of Liberia. It also provides students with earlier IT qualification to upgrade their diploma in a degree without loss of credits or years.

This programme is designed to produce graduates with a strong knowledge base on various components of IT domains which are relevant for both software and network professionals.

“

TAKE RISKS
NOW AND DO
SOMETHING
BOLD. YOU

WON'T REGRET

IT.

OpenLabs

The PROFESSIONAL DIPLOMA IN IT- SOFTWARE ENGINEERING program is aimed at creating software engineering professionals. Students will learn most prevalent and latest technologies in the software Industry. It builds strong foundational skills in Java Technologies, .NET technologies & Web Development programs. Software curriculum have Multiple Job profiles-based architecture like Database Developer, Web Application Developer in Java & .NET, Web Designing using HTML & jQuery etc. In this curriculum some courses are Global certification mapped, will help student to clear the exam.

This curriculum is also powered by OpenLab's revolutionary methodology, which provides the teacher and the group of students to mold the learning style dependent on the profile of the Learners and give an environment to provide constructivism and collaborative learning. It has been therefore aptly called as LACC (Learning Architecture based on Collaborative Constructivism).

The program offers you certifications from Microsoft and Oracle (Java) making it the most powerful curriculum in the world and making you the best IT Professional in the Software Engineering domain in the world.

School of Fashion and Design (SFD)

BlueCrest School of Fashion and Design is a premier institution offering various professional education programmes in fashion and design. Popularly known as SFD Liberia, the institution has been in operation since 2019 and won several accolades for being the fastest growing fashion school in the country.

The values of sustainability, ethical entrepreneurship and celebration of uniqueness lie at the core of all SFD courses. Students, no matter what they chose to study at SFD, are encouraged to express creativity while understanding different approaches to fashion and design. They learn a wide range of disciplinary concepts using modern facilities and hands-on training by seasoned professionals in the industry.

Awards and Recognitions

Alumni Corner

“ I started doing my CISCO-CCNA Routing & Switching course at the BlueCrest university in 2017. The curriculum activities of BlueCrest University are very well organized and I like the practical approach of the courses, they've changed my learning methods beyond my imagination.

William N. Konah
Junior Network Administrator
Access Bank Liberia

“ BlueCrest University Liberia has imparted my ICT knowledge a whole lot most especially in Networking & System Administration. Because of BlueCrest University Liberia, I'm now of career man. I'm currently serving as IT supervisor in my institution administering the network infrastructures.

Emmet H. Stubblefield
IT Supervisor - Center for National Documents & Records Agency

“ I have always felt that I was so lucky to be a student at BlueCrest University, and not at any other private or public University. The thing I admire the most about BlueCrest University is the support I received from everyone at the University. I wouldn't have been able to achieve what I have achieved without that caring environment. I'm also the CTO of a software startup company.

Israel Zowulu Kollie
Product Analyst
Lonestar Cell MTN

“ Attending the Software Engineering Professional studies at BlueCrest University Liberia was a life changing experience for me. I came into program with a narrow interest which was broadened greatly after completion of two years study. I've developed a better understanding of Software Development (Programming Languages), a transition I would likely not have made without BlueCrest University-OpenLabs Liberia.

Jonathan S. D. Benda
Software Developer &
Database Officer - Access Bank Liberia

“ Coming to BlueCrest University-OpenLabs Liberia was not a mistake. This institution has changed my entire IT career. I entered as an IT student with some computer knowledge but today I see boast of this great institution for improving my life.

Patrick Volagar Kargna - IT Assistant Manager (MIS) Liberia Petroleum Refining Company (LPRC)

Financial Assistance

The college offers various scholarships to meritorious students from all walks of life. Here are some of our scholarship programmes:

Gbowee Foundation Undergraduate Scholarships

Church of Jesus Christ of Latter-day Saints for meritorious students

Educate the Next Gen (ETN) Undergraduate Scholarships

EDUCATION FOR LIFE

Campus life is the overall aspects of you being a student and sometimes it goes beyond what you learn in the classroom. Students come to school individually but after meeting one or two others they leave as “family”.
